# ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urins, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bindder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weak ness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sed, ment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy, is seen realizat. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Daily Times and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer. CHIEF CAUSE.

NORTH CAROLINA NEWS.

GOV. RUSSELL OFFERS A REWARD FOR AN UNKNOWN MURDERER,

Test Case Against County Commissioners Who Refused Liquor Licenses-Ins surance Companies Defy the Law.

RALEIGH, N. C., July 10 .- Special. Jovernor Russell offers \$100 reward for he perpetrators of a strange crime April lst. The body of an unknown man was found floating in the French Broad river n Buncombe county. The coroner held an inquest and the jury was of the opinion that the body was that of William Vestal. There seems to be no clue whatever to the murderer or murderers. It was found that the latter after killing him had thrown the body in the river.

An interesting legal case comes up from Chatham county. A. P. Terry, of Pittsboro, made application to the county commissioners for license to sell liquor and 275 out of the 410 voters in the township signed the petition. The county commissioners refused to grant license. Proceedings were to-day begun to force them to grant it, on the ground that the law does not give them absolute discretion or power to refuse generally.

The wording of a previous act was "shall without discretion grant license," while that of the present act is "may." But there is a proviso, which was in the former act and which was, evidently by an oversight, left in the new one, and it is on this proviso that Terry's counsel base their contention.

WILL DEFY THE LAW. ever to the murderer or murderers. It

will DEFY THE LAW.

The Southeastern Tariff Insurance Association wil not comply with the law of the last Legislature requiring insurance on farm houses to be as low as the rates in the Southside counties of Virginia. The act also requires a reduction of rates on farms in the country. With this act the companies comply, but they ignore that part of it relative to country dwellings.

A Pinkerton detective is now at Lexington trying to unravel the mystery of the murder of Mrs. A. A. Springs.

The Louisburg dispensary is making sales at the rate of about \$20 a day. The commissioners ordered beer kept on ice, but this the board of control stopped.

sel's carrying out has has a an all seless of the North Carolina Rallway to the Southern.

THE ORDER RESCINDED.

As before mentioned the keeper of the capital issued an order that no children or nurses would be allowed in the capital square after 7 P. M. The board of public buildings held a special session yesterday and rescinded the order. There is some comment on the fact that not the least notice was taken at the capital or by the treasury department of the death of ex-State Treasurer S. McD. Tate. The capital board yesterday discussed this matter, in view of newspaper strictures. The law now requires a report of the amount of air furnished in mines. The first report of this kind ever made came to-day from the Cumnock Coal Mine.

The rullitary company at Henderson will go to Washington, D. C., Monday on its annual outling.

Being discovered, the fox sought refuge under the dwelling, but was driven out by Mr. Terrier's son, John, aided by dogs, pursued a short distance, and killed. In the melec the young man ws slightly bitten on the back of the hand by the fox. The abrasion soon healed, and nething more was thought of it until Tuesday, the 6th, when the hand became inflamed, swolen, and painful. Spasms and convulsions followed, and the young man became so violent that several strong men could hold him with difficulty. He died last night in great agony.

He was nineteen years of age and highly esteemed by those who knew him best. It is supposed the fox had hydrophobla, which caused him to come to the house in the daytime.

He said: "I can prognosticate,
With estimates correct;
And when the skies I contemplate,
I know what to expect.
When dark ning clouds obscure my sight
I think perhaps 'twill rain;
And when the stars are shining bright,
I know 'tis clear again."
And then abstractedly he scanned
